This is the response from WDNR to my inquiry about obtaining the well construction reports. Cheryl, your assigned attorney should review the form to see if and whom from EPA should sign, if we would try to get the reports without signing by another means. The purpose would be to get the depth to groundwater info on the wells to be able to do water table contours and groundwater flow (as Wendy showed in the youtube video).

Milo

Milo, the well information on the DVD is in FileMakerPro format. The well geology is linked to the other well info by WUWN. Hopefully this format will be useable to provide what you need.
The completed request form may be submitted to be by e-mail.

We are committed to service excellence.

Visit our survey at <http://dnr.wi.gov/customersurvey> to evaluate how I did.
